

Government of the Peoples Republic of Bangladesh
Directorate General of Health Services
Hospital & Clinics Section
Mohakhali, Dhaka – 1212

Memo No- DGHS/Hosp./Misc./ 620

Date:17/ 05/2020

Director

.....Hospital, Dhaka.

Subject: Request to support & cooperation Data Collection on Facility Preparedness & Readiness in the context of COVID – 19

As you are aware that, Health Systems resilience is vital to tackle the COVID - 19 pandemic outbreak and averting the mortality and morbidity resulted as a consequences of disease transmission. Therefore, it is essential to know the status of health facilities to ascertain the requirements and vital for strengthening the health systems.

USAID MTaPS program is closely working with DGHS in different activities in GOB emergency responses against COVID -19. They are assigned to conduct facility assessment of dedicated COVID hospitals in Dhaka city and around. A team of data collectors & assessors of MTaPS program will visit your facility and collect the facility information including other preparedness related activities that have been undertaken locally as a part of National COVID -19 preparedness and readiness plan. Assigned collectors/assessor as per attached list and proposed program schedule will collect the data.

The information thus collected will be compiled, analyzed and for policy decision for resource mobilization accordingly.

You are therefore, requested to extend your support and cooperation during data collection at your facility.

Details of data collectors / assessor and program schedule is attached.

(Dr. Md. Aminul Hasan)
